---

**Kindly deliver your answer (softcopy (presented in your laptop + CD)  
and printed hard copy of design and html/java script code)**

**before Monday 12/08/2013**

- The purpose of this project is to design, develop, and publish a web site using recommended design practices.
- Your Project will demonstrate mastery of the web development skills and concepts learned in this course.
- Your web site might be about a favorite hobby or subject, your family, a church, a mosque or club you belong to, a company that a friend owns, the company you work for, etc.
- The project must be your own design and be completed by you.
- You are required to publish your web on your laptop as a local host website. Plus delivering web content (softcopy and hard copy) by the dead line. the following technologies should be addressed:
  - Web pages design (HTML, CSS)
  - Client-end scripting interactivity (JavaScript)
  - Multimedia (Audio, video) and maps
